FYI – Sonoma County just issued this.
One year after their fires.

PURPOSE OF THIS FRAMEWORK

The Recovery and Resiliency Framework represents the Board of Supervisors' call to action. It reflects the community's vision for a resilient future and presents an approach to achieve it. It capitalizes on our County's strengths and identifies the investments we need to keep Sonoma County strong. The Framework is a foundation for integration of public, private, and non-governmental recovery efforts County-wide, and is informed by residents, community partners, County departments, cities, and other jurisdictions in the County.

Subject: Recovery and Resiliency Framework Approved

Greetings Community Partners,

On Tuesday, the Board of Supervisors approved the Recovery and Resiliency Framework which serves as a vision and approach for how Sonoma County will recover and emerge more resilient from the October 2017 wildfires. This Framework was prepared by the County's Office of Recovery and Resiliency and the content is a reflection of input and collaboration provided by many County departments and agencies, cities and other jurisdictions, nonprofits, and our community stakeholders. YOU all helped to create this Framework. Thank you for your involvement, passion, and genuine interest in seeing our community recover and emerge more resilient than ever.

The Framework references the list of Potential Action Items that will be used to help achieve the goals in the Framework. The Potential Action Items are more detailed than the Framework and identify implementation and funding status and the role the County plays for each action.

We are adding all of the documents to our website – <http://sonomacounty.ca.gov/ORR> – and will keep this website updated when new information and progress reports are available.

Thank you for your involvement and interest in Sonoma County's recovery and resiliency,

Office of Recovery and Resiliency - Sonoma County Administrator's Office
